* Please note that the 'pricing bolt-on' is a chargeable upgrade option										
* The same version of ComfortableConservatories must exist on all PC / laptops. Matching data on each machine is also required for best results.										
** This option is used to export the Conservatory model in to a file that can be imported in to many CAD packages that support the .DXF file format.										
*** These reports have no logo or company information. These can be sized to fit letterheaded paper (Dependant on printer drivers).
